### DETAILED ACTION

1. Claim 33 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It appears that term "stage" is not an apparatus element but rather method step and thus needs to be further defines as to apparatus structure. **For example:** The first refiner stage R1 and R2 are actually two refiners; the first hydrocyclone C1 and C2 are actually two hydrocyclones. The various apparatus elements are not structurally connected to form a unitary apparatus structure. **For example,** there is no connecting apparatus element(s) between the screen and any of the hydrocyclones or refiner.

2. Claim 33 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
